Neil Simmons
Bureau of Land Management
900 North 700 East
Price, UT

Dear Neil:

Enclosed is a diagram of our mine site in Emery County. It is our intention to conduct a continuing operation, while keeping the disturbed area to a minimum and within the confines of the 278' X 495' area depicted on the diagram. There are several pieces of portable equipment that will be moved occasionally within this area.

If you need additional information, please let me know.

Sincerely,

Tom Clark
